REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The amendment filed on 9/4/2007 has been considered in view of the specification and the drawings of this application. Claims 1-9 and 11-19 have been amended to overcome the rejections. The references of the record taken alone or in combination fail to teach or suggest:

Because the motors of Uemura and Elliott activate switches that reverse the direction of rotation of the motor shaft 3, they do not include a rotor that rotates in only a single direction, as claimed. Accordingly, the principle of operation of the motors of Uemura and Elliott is vastly different from the principle of operation of the claimed rotating electrical machine. Uemura and Elliott, therefore, fail to teach or suggest an electrical machine that rotates in only a single direction, as claimed in amended claims 1 and 2. Because Uemura and Elliott fail to teach or suggest, either alone or in combination, an electrical machine in which the rotor rotates in only a single direction, the obviousness rejection cannot be maintained.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Paul Ip/ whose telephone number is (571)-272-1941. The examiner can normally be reached on Monday to Friday from 6:30 am to 3:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lincoln Donovan can be reached on (571)-272-1988. The fax phone
